The above ad, was in the Detroit Free Press last Sunday. REO stock has advanced

three dollars per share since August. Do yoou know of any other stock, automobile or otherwise, that has advanced this fall? Think it over, there is a reason.

You have heard many times that REO was a good automobile, but you have paid but very little attention to it.

# LAYNE & BOWLER BAND SCHEDULES

man, who will direct the musicians

at the concert. Mr. Redding told me a complete program will be ready for announcement within a few days. He says it will be a rare treat for Goodfellows who love music. There will be more than 35 pieces in the band when the overture is played.

when the overture is played.

That, Goodfellows, is the first of these shows. In a day or so I am going to call on a grominent theatrical man, a man who already has hinted that he is going to do something fine for the Goodfellows. It is quite likely that I will have something of interest to tell you early next week. I will drop a hint. Remember our show of last year on Main street?

### Main street Familiar Names.

The second day's collections sur-passed the opening list. And many were the familiar names. Checks which a heavy-loaded postman brought to my desk bore names, some of which I can remember for a number of years.

Mind you, though, members of the

silent Santa Claus brigade, all these letters were not subscriptions. The letters were not subscriptions. The postman, who himself is a Goodfellow, remarked that it looked as though the letters from the kiddles were far outnumbering those, the handwriting on whose envelope denoted "check inside." The postman knows. For some time now he has been bringing mail to the Goodfellow and it is always the way he and it is almost uncanny the way h and it is almost uncarny the way he can spot a letter from some young-ster who writes telling me that unless the Goodfellows see otherwise Krisse Kringle is sure to forget that there is a chimney at his house. Newsboy Remembered.

Indeed we need subscriptions, big ones, middle-sized ones and wee ones. Talking of wee contributions, a newsboy came to my desk yesterday afternoon and handed me 37 cents in

mennies. He said:

"Say, a couple of years ago you guys brought me and mother a lot of Christmas stuff. I haven't forgot that, and here's what I made today for the Goodfellows. I'm work-

Now, Goodfellows, that is the real spirit of this club. That kid didn't forget. How can you, who are assured of a fat Christmas, one at home with maybe several kiddles of your own, all of whom will rush eagerly to their stockings Christmas morn to find them well filled, you who are certain of a fine plump turkey on the Christmas, dinner table, how can you forget those children of want who won't have all these

things.

There are numerous families here There are numerous families here who will need coal, clothing, some whose rent is in arrears, kiddles whose toes are peeking through shoes of last winter's vintage, and the Goodfellows must take care of them. In each bag it will be our endeavor to place some of the things which carry Christmas cheer to the hearts of those youngsters, a bit of a toy, some of the good things that more children than you think see but once each year and sometimes not then each year and sometimes not then unless the Goodfellow calls. Send that check to The News Scimitar Goodfellows' club, The News Scimitar. Send it today.

Lest you forget, Goodfellows. To you is granted the soul-satisfying task of preventing the day of days from being a day of mockery, a day to be feared instead of revered. For are, in truth, a Santa Claus, ent Santa, to the poor-a Good-

in the Hot Springs region of New Zealand there are cracks in the earth from which steam pours forth continually.

Here Mother Earth does the cooking, the natives merely putting their food into boxes and setting them over the cracks.

Thus does Nature herself furnish the model for the double boilers in which oatmeal is so deliciously cooked at CHILDS.

Beauty With Ability In the Essex Sedan

It is not easy to associate the beauty and exquisite charm of the Essex Sedan with the extraordinary ability through which it has excelled all other cars by so many famous official proofs.

Yet what else could account for the unusual satisfaction and contentment Essex owners feel in their cars.

Essex holds the greatest official endurance record of 3037 miles in 50 hours. Four different Essex cars have 4 times broken the transcontinental record between San Francisco and New York. It holds the 24-hour marks for both dirt track and open road running. And for cars its motor size it holds all official speed and endurance records from 1 to 50 hours.

Moreover Essex gives all the light type saving in fuel, tires and oil. In addition its endurance and reliability eliminate much repair expense that less durable cars incur.
